UNIVERSAL BASIC EDUCATION COMMISSION (UBEC)

DIGEST OF BASIC EDUCATION STATISTICS FOR PUBLIC AND PRIVATE SCHOOLS IN NIGERIA

2018

Education For All is the Responsibility of All

FOREWORD

Universal Basic Education Commission (UBEC) was established by the UBE Act, 2004 to ensure that all Nigerian children of school-going age from Early Childcare Development (ECD) to Junior Secondary School have access to free and compulsory education. Amongst the functions of the Commission, as provided by the UBE Act, are (i) the regular conduct of personnel audit of teaching and non-teaching staff of all basic education institutions in Nigeria, and (ii) the establishment of a basic education data bank for research and planning.

The absence of accurate and reliable data has been one of the major challenges affecting policy formulation and implementation in the basic education sub-sector in Nigeria.

Having realized the importance of assembling reliable data for effective planning, the Commission conducted a National Personnel Audit (NPA) of all basic education institutions (public and private) in the country in May and June, 2018. This was among others, to obtain comprehensive and reliable data on children of school-going age enrolled in basic education institutions; obtain the Key Performance Indicators (KPIs) of basic education and track the achievements of relevant Sustainable Development Goals (SDGs); and feed data into the National Databank to strengthen Basic Education Management Information System (BEMIS) for national and global reporting.

The massive data on basic education institutions collected nationwide during the 2018 NPA were processed, analyzed, and statistical tables generated from them. This was then used to develop a compendium containing comprehensive facts and figures on basic education indicators in the country. The Compendium which has been carefully put together, will no doubt provide adequate information to assist in research and policy formulation for the sub-sector.

It is hoped that implementing agencies of the UBE program, researchers, policy makers and the general public will find this document useful.

Dr. Hamid Bobboyi

Executive Secretary

May, 2019.

ACKNOWLEDGEMENT

In developing the Compendium of Basic Education Profile and Indicators from the data of the 2018 NPA, some key staff of the Commission, officers from relevant sister organizations and Consultants played major roles. The Commission therefore, wishes to acknowledge their contributions.

Mention must be made of Dr. Hamid Bobboyi, Executive Secretary of UBEC for considering it necessary for the Commission to develop the Compendium; Prof. Gidado Tahir, Chairman of the 2018 NPA Report Writing Committee for his guidance and direction; Prof. Charles O. Onocha, the Lead Consultant for his painstaking coordination and supervision of the whole process; and Dr. Aminu Abdu Bichi, for his expertise and professional inputs.

Also deserving of mention are Dr. T.T. Onosode, Director, Planning, Research and Statistics, UBEC; U.Y. Ismaila, Overseer of the Department of Teacher Development, UBEC; and Elder David Wabi, Secretary, 2018 NPA Planning Committee. These individuals contributed immensely to the success of the Compendium.

The tedious process of carefully extracting and analyzing the data of the 2018 NPA was carried out by UBEC ICT and EMIS staff which comprise Osahon Igbinoba (Head, ICT Unit); Udoh Akpanossom (Head, EMIS Unit); Garba Kwandi; Yakubu Achimugu; Saleh Kanam; Ibrahim Bala Bakari; Akila Dabara Kayit; Jubril Abubakar; Ayopo Adewale Soremi; Oluwaseun Ige; Shehu Gusau; Jamilla Sa'a; and Ngozi Okeke. Others include Mathews Nganjiozor, Federal Ministry of Education (FME); Habib Isah, National Population Commission (NPopC); Chris Obiofuma, National Bureau of Statistics (NBS); and Ndubuisi Ofuani, FME.

Maxwell Daramola, Patrick Agu, John Umoru, Yohanna Wobin and Emmanuel Musa are equally commended for providing secretariat services; as well as Daniel Najirah, for his efforts at ensuring that those involved in the development of the Compendium were conveyed from one destination to another during the activity.

Rt. Rev. Edwin Musa Jarumai, FCPA

Chairman, 2018 NPA Planning Committee

INTRODUCTION

The dearth of up-to-date and reliable data has remained a major constraint to effective basic education planning. The primary source of basic education data is the school. But record keeping at this level is generally poor and where available, they are not up-to-date. This constraint makes effective planning, policy formulation and implementation of the UBE difficult.

In the attempt to fill the gaps in basic education data, UBEC conducted national personnel audits of basic education institutions in 2006 and 2010. This was in line with the UBE Act, 2004 which empowers it to carry out in concert with the states and local governments at regular intervals, a personnel audit of teaching and non-teaching staff of all basic education institutions in Nigeria. However, these two audits were not comprehensive as they both excluded private schools. To therefore ensure that comprehensive and up-to-date data on basic education is available, the Commission conducted a nation-wide personnel audit of all public and private basic education institutions in Nigeria in May and June 2018.

The objectives of the 2018 NPA, amongst others, were to obtain comprehensive and reliable data on children of school going-age enrolled in basic education institutions in Nigeria (ECD, Primary and Junior Secondary); and feed the acquired basic education data into the National databank to strengthen Basic Education Management System (BEMIS) for effective national and global reporting, in line with Nigeria's Education Management Information System (NEMIS) policy.

To achieve one of the main objectives of national personnel audits, i.e. the provision of relevant information to education managers, researchers and other stakeholders for effective planning and management of the basic education sub-sector in Nigeria, the 2018 NPA data were analyzed with basic facts and figures generated therefrom. The outcomes of the statistical analyses were then compiled to develop a Compendium of Basic Education Profile and Indicators.

Compendium of Basic Education Profile and Indicators

The Compendium of Basic Education Profile and Indicators is the first of its kind in the Basic Education sub-sector with its unique contents and features. The document, which contains comprehensive and diverse basic education indicators for the 36 states and the Federal Capital Territory, will serve as a reference material for effective planning and implementation of the UBE.

The Compendium is arranged in three (3) Volumes as follows:

i. Volume I - Indicator analysis of Public Schools;
ii. Volume II - Indicator analysis of Private Schools; and
iii. Volume III - Indicator analysis of Public and Private Schools combined.

The analyses in this document include information on the demography of school age population; number of basic education schools by levels; types of schools; learners by levels; in-school children by age; and special programmes in basic education which includes the Special Needs Schools, Normadic, Farmers/Migrant-Folks Children Schools, Islammya Integrated and Almajiri/Tsangaya Schools. Others are schools' personnel (teaching and non-teaching staff by employer); teachers' Inputs by subjects; schools infrastructure including classrooms, furniture and toilets; schools facilities; instructional materials; library resources and laboratory equipment; and administrative personnel in basic education management, etc.
