PROTECTIONADVICEDURINGCOVID19FOR
MEDICAL STAFF

**Staff at sick bay should
be trained and provided
with required PPE**

@NCDGov   

COVID19.NCDC.GOV.NG

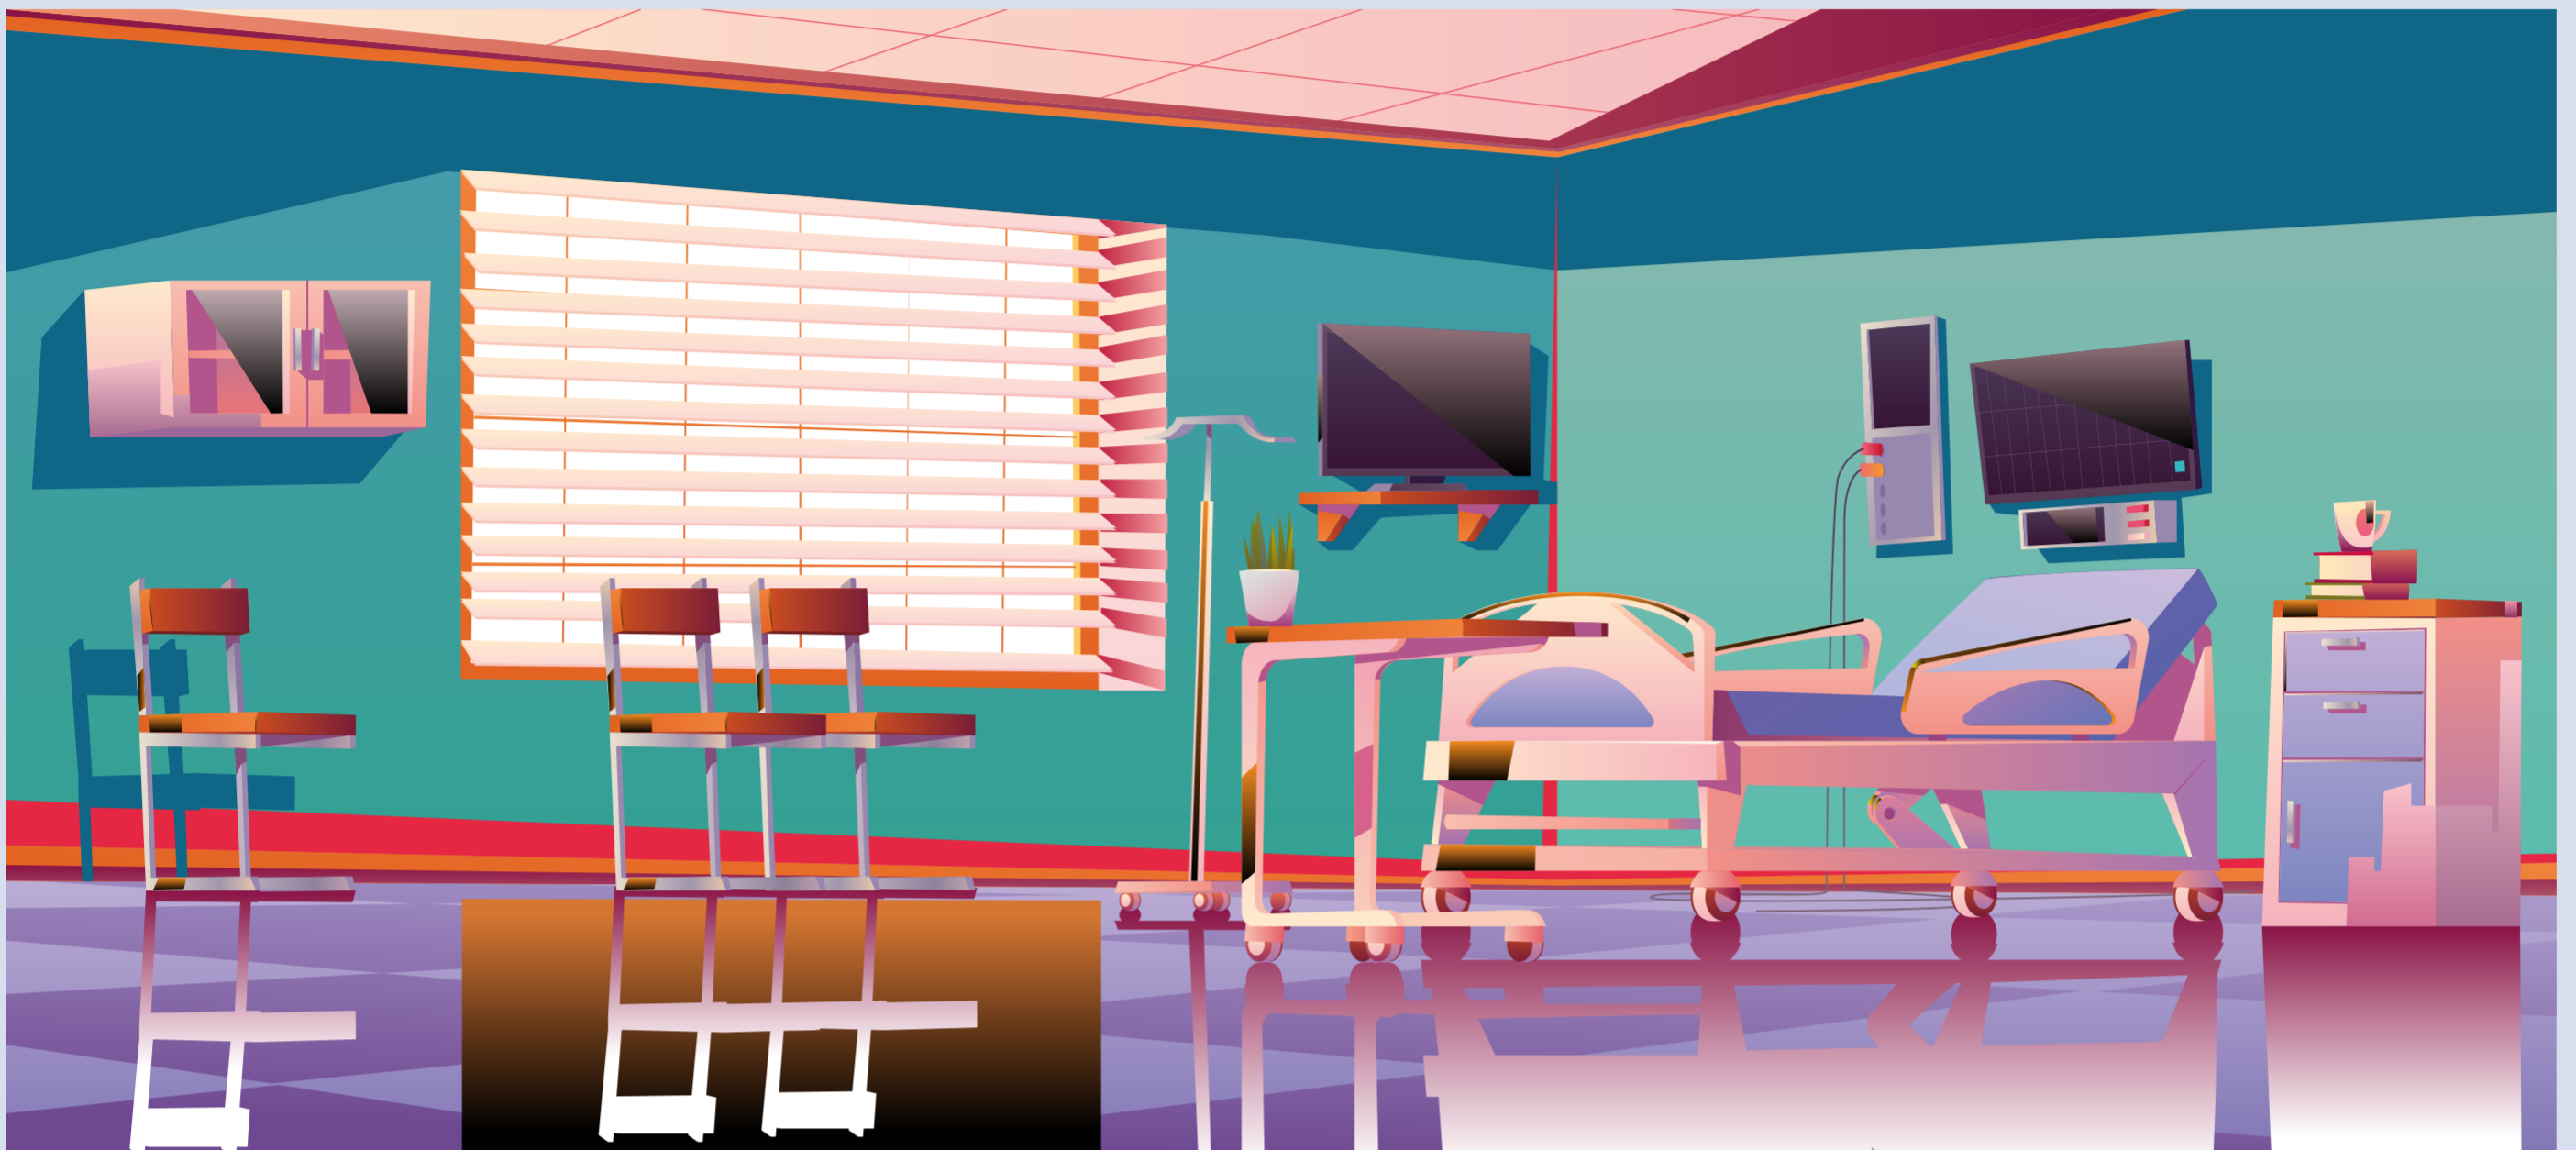

FEDERAL MINISTRY OF
HEALTH

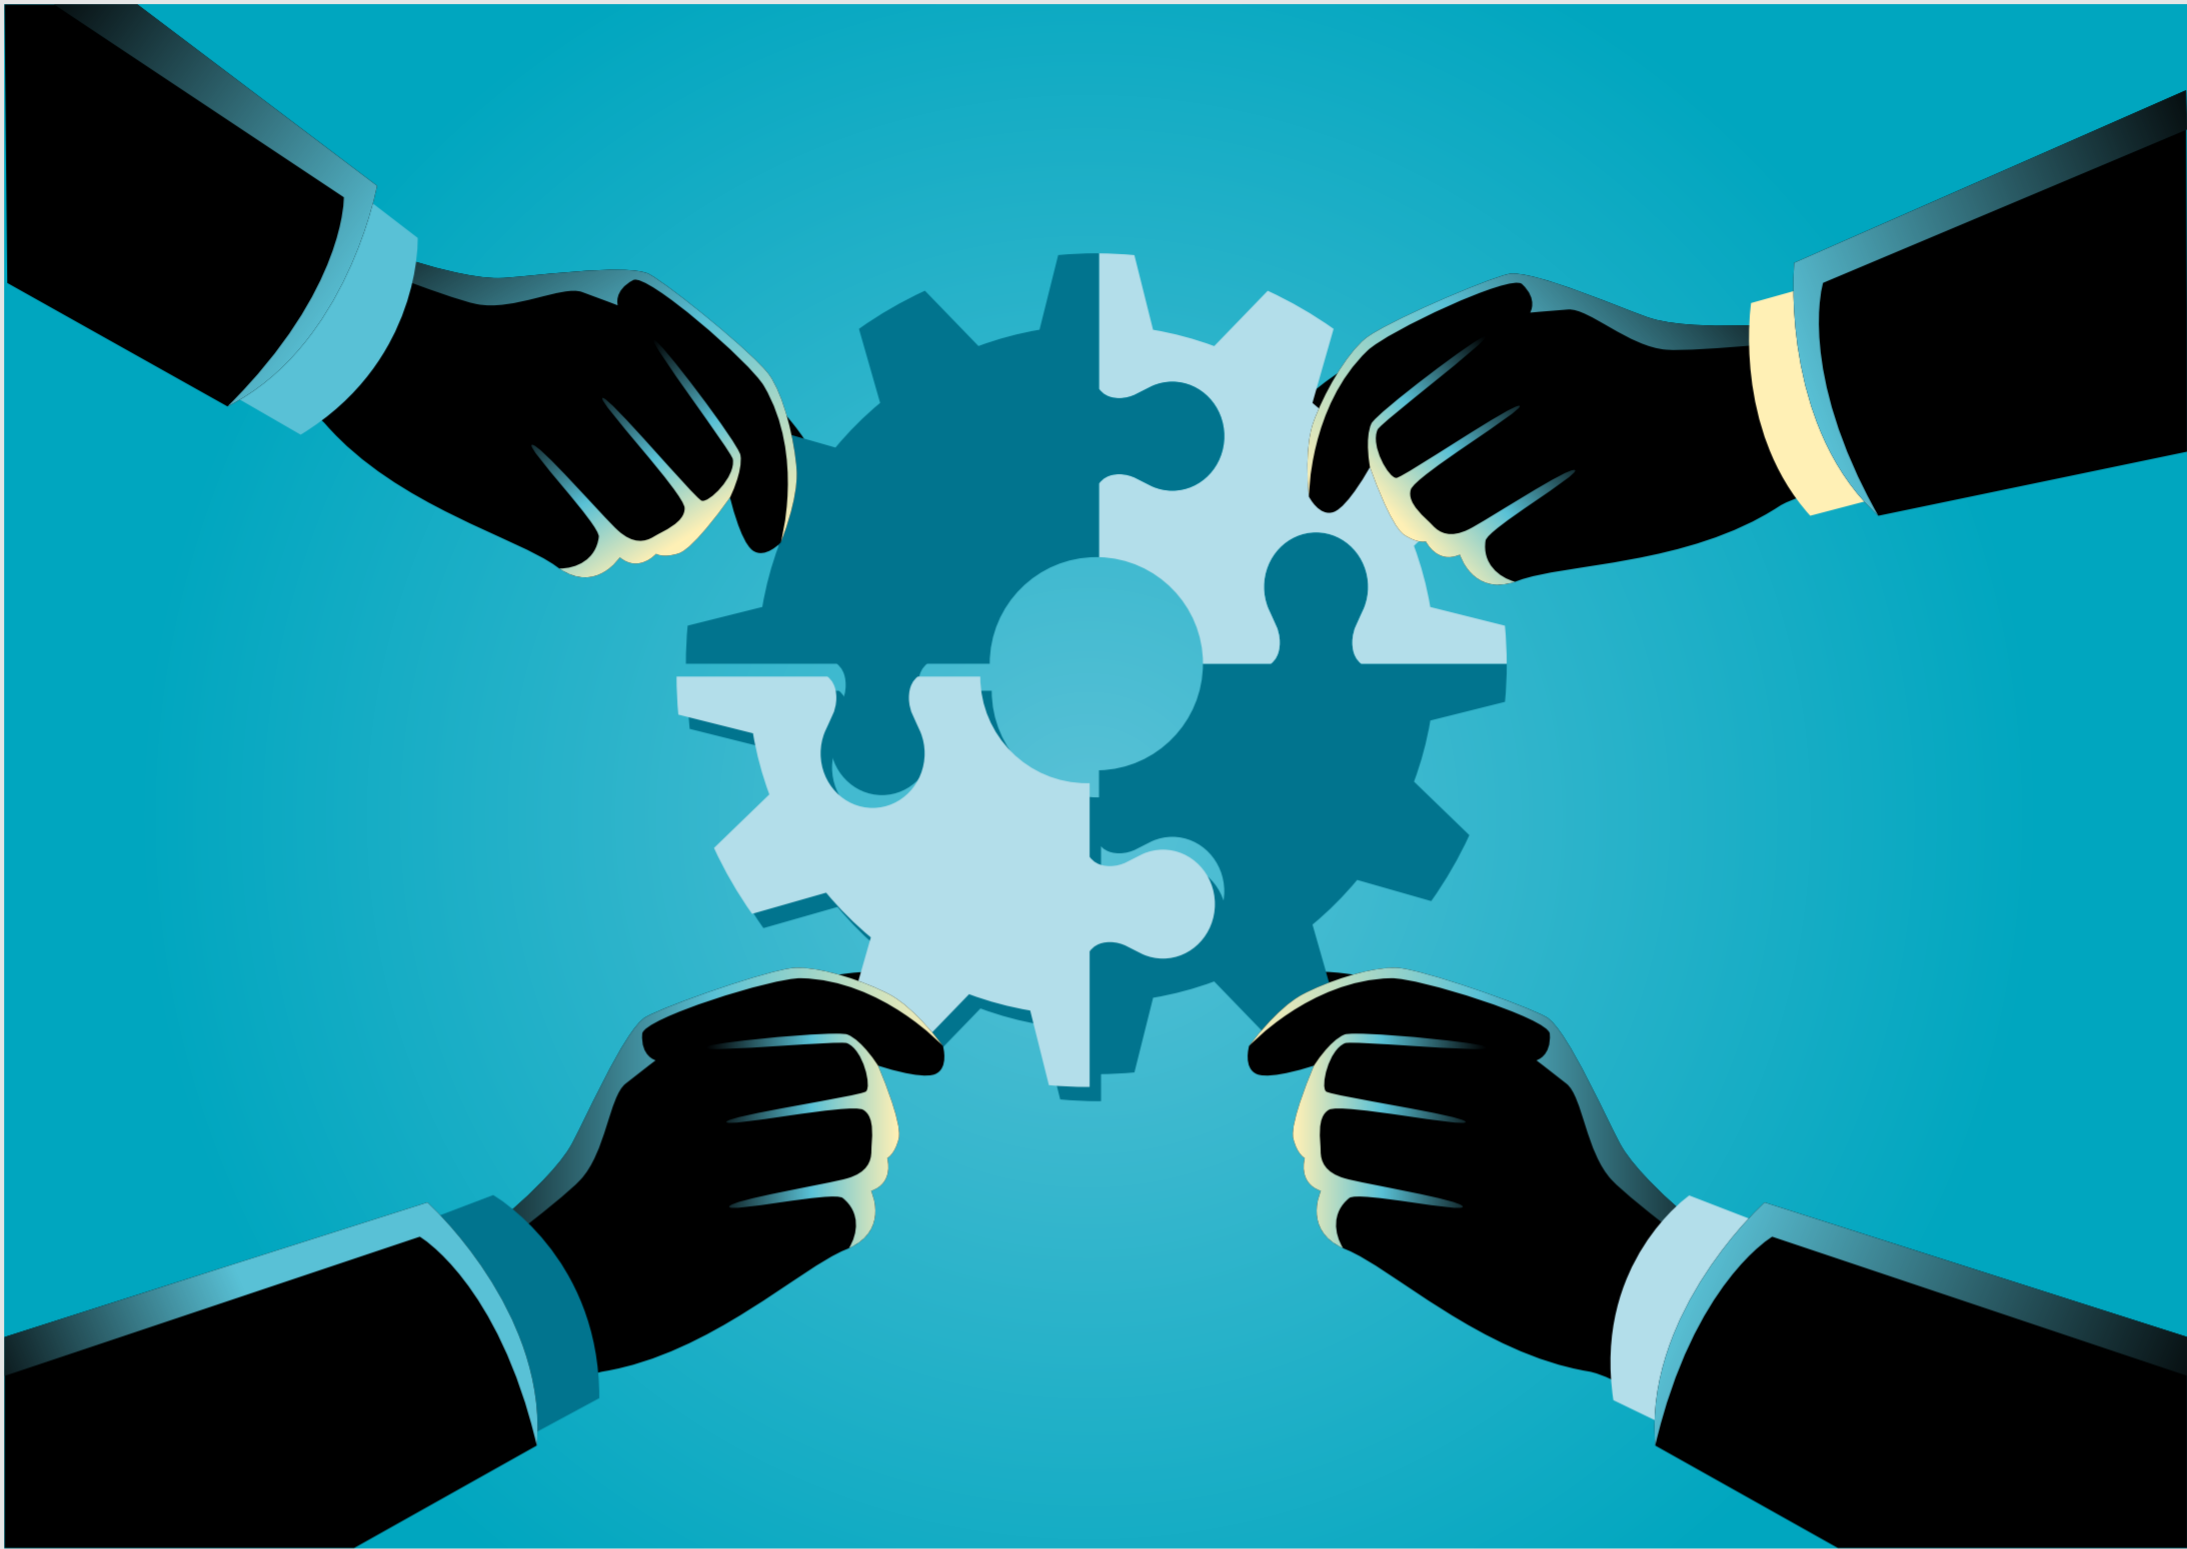

NCDC
NIGERIA CENTRE FOR DISEASE CONTROL

Schools should ensure that waste from the sickbay and used face masks are separated from general waste and safely disposed

Ensure that holding/sick bays can be used to manage asymptomatic cases for boarding students and that for day students, a response protocol is in place to transmit students who are ill or test positive to the nearest designated hospital facility

State Ministries of Health should ensure that all schools are in close communication with the Local Government Rapid Response Team, State Epidemiologist and other health officials at all times. These groups should collaborate on school-related response activities

PREVENT
THE SPREAD
OF COVID-19

#TakeResponsibility
#COVID19Nigeria

All schools must have a communications plan to inform parents, in the event of a COVID-19 confirmed case
