

FEDERAL MINISTRY OF EDUCATION PARTNERED GPDCA ON NIGERIA VOCATIONAL AND ENTERPRISE SKILLS DEVELOPMENT (VESD) MANAGEMENT SYSTEM PROJECT

Global Partnership for Development Cooperation in Africa (GPDCA) in a strategic partnership with Government of Nigeria through Federal Ministry of Education entered into a Memorandum of Understanding to develop and implement Nigeria Vocational and Enterprise Skills Development (VESD) Management System Project. The Project is aimed to institutionalize a seamless process of uniting the citizens towards a skilled Nigeria.

Nigeria Vocational and Enterprise Skills Development (VESD) Management System Project is a multi-stakeholders intervention that addresses skills gap, insecurity, unemployment and migration issues by utilizing innovative and emerging technologies such as Augmented/Virtual Reality (AVR) and Block Chain technologies solutions. The Project intends to enhance digital skills, improve learning and teaching outcomes. The Project shall promote entrepreneurship, raise skilled professionals and reward skills excellence. Above all, the expected outcomes of the project are to reduce poverty and enhance socio-economic development of citizens in Nigeria.

The Project is being implemented by Global Partnership for Development Cooperation in Africa (GPDCA) and its collaborating partners.
