| 2.1. | REPORT ON LAST VISITATION EXERCISE | The Federal University Birnin Kebbi was established in 2013. The University is exempted from Term of Reference one due to its year of establishment. | | Visitor notes that there was no Visitation Panel report during this period as the University was established in 2013. |

TERMOFREFERENCE TWO

"Look into the leadership quality of the University in terms of the roles of the Governing Council, the Vice Chancellor and other Principal Officers."

| S/No. | Item | Observations/Findings | Recommendations | Comments |
|-------|-----------------------|--|---|--|
| 3.1. | THE GOVERNING COUNCIL | (i) There was no Governing Council until 13th of May, 2015 when the maiden Council meeting was held. (ii) The lacuna was filled by NUC that provided advisory and technical services as well as authorization and approvals during the period. (iii) The Governing Council had a one-year tenure in 2015. The Council's single meeting, during the period, was for familiarization of members with University infrastructure and governance architecture. In addition, it affirmed the following: (a) the establishment of two take-off Faculties, (b) theappointment of the Chancellor, (c) the establishment of two Council Committees F&GPC and SSEC, (d) the examination of the financial report from January to May 2015. | (i) The Panel recommends that other Principal Officers viz: Registrar, Bursar, Librarian should continue to support the Vice Chancellor for the effective management of the affairs of the University, even when Councils are not in place. (ii) The Vice Chancellor and his team should ensure that the University is managed in accordance with the provisions of the law and best practices in general administration and financial management. (iii) The Principal Officers, with the approval of the Governing Council, should ensure the speedy publication of Staff and Students' Handbooks as internal or domesticated rule-books/guides for effective management. | | | | (v) The Federal Government should ensure release of approved funds for take-off of new Universities, constraints of budgets and appropriations notwithstanding. | |
| | | | (w) The Federal Government should get newly approved Vice-Chancellors to undergo short-term management training (virtual or physical). | |
| | | | This is because Vice Chancellors are experts in academic matters, while proficiency in management may not match their academic prowess. | |

TERMOFREFERENCE THREE

"Look into the financial management of each Institution including statutory allocations and internally generated revenue over the recommended period, and determine whether it was in compliant with appropriate regulations."

| 41. | THE STATE OF THE UNIVERSITY FINANCE/ SOURCES OF FUNDING | (i) There were funding challenges at inception as one of the three Universities established at the same time that had no opportunity of getting take-off projects. This negatively affected its smooth take-off. (ii) There was no Internally Generated Revenue (IGR) to depend on. In the preceding years, students' enrolment was small and could not guarantee realization of stable IGR for daily running of the University. (iii) Maintenance of utility bills became a serious burden as well as the challenges of budget envelop system. (iv) The quantum of funds a vailable for research support is low. Accounting and Financial Reporting Yet to be fully computerized. The payroll has been partially computerized. Some records such as cash book and ledgers are kept on stand-alone excel systems. | (i) Management should step up efforts to maintain the usual monthly bank reconciliations as and when due. (ii) Management should intensify training for Bursary staff in order to improve capacity for compliance with procedures and regulations. (iii) Management should ensure that the Fixed Asset policy includes disposal of nonfunctional items and that the Asset Register is regularly updated. Fixed Assets should be adequately coded and each asset matched with the year of acquisition. The code should be written on them as evidence of ownership. (iv) Management should adopt the manual of Uniform Accounting and adhere to the principles therein as this would enhance the accuracy and reliability of financial information. | Visitor notes these recommendations for update in subsequent visitation. |

| | | The Panel examined the flow of financial management information within the University to Council, Faculties and Units. The quality and regularity of the management accounts and reports improved progressively. The final accounts for the period under review i.e. (2014 and 2015), though providing only limited background information and analysis, were made available for public and interested individual/organisations. | (v) In view of the impending adoption of International Public Sector Accounting Standard (IPSAS), a comprehensive fixed asset register should be developed for effective management and control as contained in External Auditor's Report, 2015. (v) Management should ensure that the Bursar initiates plans to improve financial information management. | |
| | · | The internal control system is weak. The information given by the internal Auditor is considered inadequate to examine any weakness on transactions or operational activities. | (vii) Management should ensure that the Bursar's Quarterly reports to Council include details of the following: (a) Income and Expenditure. | · | · | Management complied substantially with financial regulation and treasury circular with respect to budget/ approval estimates and actual disbursement. | | |
| | | Accounting and Record Keeping | | |
| | | The accounting system is backed by a simple Microsoft Excel program considered adequate for the University's current level of financial transaction. | | |
| | | Accounting Manual | | |
| | | There is the use/application of manual of Uniform Accounting System for Nigerian Universities published by NUC which, among other benefits provides specifically for some forms of uniformity in the way funds realized are accounted for. | | |
