Institute for Information
Technologies in Education

Prof Tahir Mamman

The Honorable Minister
of Education
Federal Ministry of Education
Government of the
Federal Republic of Nigeria

Cc: Nigerian National Commission
for UNESCO

IITE/MOS/DIR/23/223/EV

3 October 2023

Honorable Professor Mamman,

On behalf of the UNESCO Institute for Information Technologies in Education (UNESCO IITE) and in my personal capacity, I extend my sincere compliments and take this opportunity to share details regarding the Institute's new distinctive international endeavor.

In our commitment to ensuring sustainability and advancement of the UNESCO-WEIDONG project, while following the imperative demands of our time, UNESCO IITE and Weidong Cloud Education have strategically diversified the range of joint project activities.

UNESCO IITE has developed a new online training crash course for educators dedicated to the importance and benefits of building viable green skills in and through technical and vocational education with the appropriate use of ICT and technology-positive pedagogy. The course 'ICT in Greening TVET' will introduce TVET specialists to the growing need for workforce with green skills, with respect to job sectors with high potential to adopt and improve greener, climate-responsive practices.

We herewith invite the Federal Ministry of Education of Nigeria to facilitate this distinguished undertaking by apprising the national TVET community of the new prospect for meaningful and exciting crash course focused on climate-smart, environmentally-conscious, ICT-supported professional practice.

The project partners kindly request your support in inviting TVET educators (incl. teachers, trainers, school managers, curriculum designers, learning materials developers, etc.) to the new online training journey with UNESCO IITE. The groups of prospective trainees need to be formed before **12 October 2023**.

The newly developed online training course *'ICT in Greening TVET'* will be hosted by IITE's E-Library for teachers to provide access to the open course content and free learning opportunity. The training will be delivered in the English language. A certificate of completion will be granted to all participants who successfully conclude the course.

Enrollment in *'ICT in Greening TVET'* requires minimal time and effort. All interested educators are invited to fill in the registration form and secure their seats at the Course Introduction & Overview Webinar scheduled for **17 October 2023**.

UNESCO IITE extends its profound gratitude in anticipation of your cooperative response and further collaboration.

I assure you of my utmost respect and hold your authoritative support and cooperation in the highest esteem.

Yours sincerely,

Tao ZHAN

Director

UNESCO IITE
