FEDERAL MINISTRY OF EDUCATION

NIGERIA DIGEST OF EDUCATION STATISTICS

2019

Forward

The growth and development of any nation depends on the skills of the workforce which in turn is a necessary reflection of the quality of Education system. The need for the progress and improvement in the Education sector cannot be underscored.

Absence of accurate and reliable data collection has been a major challenge in Nigeria in the past. Effective policy formulation in the Education sector will be a far cry in the absence of reliable data that is evidence based. Reliable and accurate data are the only way to guarantee optimal allocation of resources to address identified challenges in the sector. This is exactly what the Nigeria Digest of Education Statistics 2019 has achieved, having built on significant progress made in 2018 edition. In recording this achievement, the support from International Development Partners has been tremendous.

There is always room for improvement in every human endeavor. In this regard, all public and private schools, together with military and para-military schools are urged to cooperate and collaborate with the Federal Ministry of Education to sustain the success recorded in the production of the Digest. I request all education administrators to put all hands-on deck in this all important task to guarantee the formulation of education policy for Nigeria with reliable data.

The 2019 Digest tried to be holistic because it captured data of almost all tiers of Nigeria Education system; comprising preprimary, primary secondary, adult and non – formal, tertiary as well as examination results, education funding interventions and scholarship awards etc. This is an improvement over our previous Digests and we will strive to go further …….. in our future publications.

This publication cannot be complete without extending our gratitude and commendation to our international development partners for their support especially to some states in their effort in the annual school census exercise. The co-operation extended by states, too has contributed immensely in making this publication a reality.

It is my pleasure therefor to present Nigeria Digest of Education Statistics 2018/2019 to all Stakeholders and the general public. We are hopeful that the Digest will begin to address the recurring challenges presented by the absence of accurate, reliable and timely data in the education sector in Nigeria in the past.

Adamu Adamu
Minister of Education
25th February, 2021

Preface

The functionality and attainment of social political and economic independence of any nation and the nation's ability to key in and compete globally can be identified in the skills of the workforce.

Education is very vital for the progress and development of any nation. The successes made in education could mainly be identified in the areas of quality, availability and reliability of data that are used in planning and policy formulation.

The FME has the mandate to effectively provide guidelines and policy to overcome the key challenges in education sector so as to measure economic progress of a nation.

Over the years, there has been improvement in data collection and process. Nigeria has progressively responded to issues of National and International data through the publication and dissemination of Nigeria Digest of Education Statistics.

The 2019 edition of the Nigeria Digest of Education Statistics has made a tremendous improvement in data collection analysis, report, interpretation and dissemination of information. This will act as a guide in policy and decision making.

The use of various scientific and technological gadgets such as GPS, smartphones, tablets etc has simplified data collection thereby making analysis and reports on data easily accessible.

The content of 2019 Digest is more comprehensive as a result of other, narrations, tables, factsheets, graph and requisite educational indicators that are relevant to Stakeholders and Researchers and they also indicate the progress that are made in the education sector in the state and nation.

The publication also includes both primary and secondary data from all levels of education from the 36 states and FCT. It is hoped that the ongoing exercise in the production of annual Digest will always improve the quality of data year by year.

We sincerely appreciate the support of the Federal Ministry of Education management that ensure this publication to come through.

Equally, we appreciate the support of the Internal Development Partners (IDPs) with particular reference to UNICEF, UNESCO, DFID, World Bank and USAID. We are also grateful to all Education Management Information System Officers and the State Ministries of Education and State Universal Basic Education Boards.

Dr. (Mrs.) Ogochukwu O. Ufoegbene
Director, Educational Planning, Research & Development
22nd February, 2021

Acknowledgment

This report would not have been possible without the valuable contributions of numerous people and institutions who willingly formed the stake holders in the provision of enabling environment to feed the global community with credible and timely data. The Department of Education Planning, Research and Development would like to acknowledge the efforts and contributions of all the establishments at the national and state levels towards this publication.

Our sincere appreciation goes to the Honourable Minister of Education, Adamu Adamu, Honourable Minister of State for Education Honourable Emeka Nwajuba and the Permanent Secretary Arc Sonny S. T. Echono for their leadership and support towards the successful production of the Digest.

We also express our heartfelt gratitude to Director, Education Planning, Research and Development Department, Dr. (Mrs.) Ogochukwu O. Ufoegbene for her exemplary leadership.

The team of experts Dr. (Mrs) G.A.E Makoju retired Director of Planning, Research and Statistics in the Ministry, Aminu Bichi Abdu (Ph.D) from University of Kano and Dr. Simeon Ogbonna are highly appreciated and recognised for the invaluable inputs. We also extend our appreciation to other Technical Partners for their uncommon technical inputs to the document amongst whom are Mr. Udoh Akpanasso ,Acting Director, PRS (UBEC). and Mr. Christopher Obiofuma of Nigeria Bureau of Statistics(NBS), as well as ……. Of National Population Commission.

We express our gratitude to the following stakeholders for their technical support and timely submission of requisite National Population Commission, National Bureau of Statistics, information; Federal Scholarship Board, Finance & Account Department of Federal Ministry of Education, Universal Basic Education Commission, National Universities Commission, National Commission for Colleges of Education, National Board for Technical Education, National Teachers, Institute, Teachers' Registration Council of Nigeria, Tertiary Education Trust Fund, National Mass Education Commission,National Commission for Nomadic Education, West African Examination

Council, National Examination Council, National Business and Technical Examination Board, and the Joint Admissions and Matriculation Board.

The NEMIS Programmer, Mr. Akinwehinmi Gbenga, is specially appreciated not just for providing technical expertise towards the generation of education data but also for his passion for Nigeria Education Management Information System.

Finally, to all staff Statistics and NEMIS and all those who worked tirelessly to actualize this publications, you are sincerely appreciated. May Almighty God continue to keep you all to realize the mission of providing timely and credible education data in Nigeria.

Mathews O. Nganjiazor
Head of Statistics and NEMIS

CHAPTER ONE

EARLY CHILDHOOD CARE DEVELOPMENT EDUCATION AND PRE-PRIMARY EDUCATION

1.0 Introduction

Early Childhood Care Development Education (ECCDE) in Nigeria covers crèche, nursery or kindergarten which normally takes place between the ages of 0-4 years, while pre-primary education is offered to children aged 5 years as preparation for primary education. Early Childhood Care Development and Pre-Primary Education is provided in both public and private schools throughout the country. This chapter provides statistics on ECCDE and pre-primary schools.

1.1 Number of Schools ECCDE/Pre-Primary Schools

Table 1.1 provides the summary of the number of public and private ECCDE and pre-primary schools for five academic years, 2014/2015 - 2018/2019, while Figure 1.1 shows the trend for the five sessions graphically. Table 1.2 provides the statistics on number of schools by state.

Table 1. 1: National Summary of Public and Private ECCDE/Pre-Primary Schools

YEAR	PUBLIC	PRIVATE	TOTAL
2014/2015	13,545	3,055	16,600
2015/2016	30,704	12,332	43,036
2016/2017	37,336	12,332	49,668
2017/2018	33,214	48,348	81,562
2018/2019	32,322	53,605	85,927

1.4 Teachers

This section presents statistics on teachers in public and private ECCDE/pre-primary schools by state and gender.

1.4.1 Number and Proportion of Qualified Teachers in ECCDE Schools

Tables 1.14 - 1.16 present statistics on the total number and proportion of qualified teachers by state and gender for public schools, private schools and combined public and private schools respectively. Qualified teachers are teachers who possess the minimum teaching qualification of the Nigeria Certificate in Education (NCE) or have post-graduate diploma or certificate in addition to their university degrees or equivalent qualifications.

Table 1. 14: Teachers in Public and Private Primary Schools by State and Gender 2018/2019

CHAPTER TWO

PRIMARY EDUCATION

2.0 Introduction

Primary education is defined by the National Policy on Education (Federal Government of Nigeria, 2014) as education offered to children aged 6-11 years. In line with the guidelines of the Universal Basic Education Programme (UBEP), it serves as preparation for junior secondary education. It is provided by both the public and private sectors. All primary age children in Nigeria are by the UBE Act, 2004 required to complete a full course of primary education and transit to JSS without interruption. The Act makes it compulsory and free of all charges in public schools. This chapter presents the statistics on primary education for public and private schools.

2.1 Summary of Public and Private Primary Schools

Table 2.1 presents the national summary of the number of public and private primary schools for five academic years, 2014/2015 – 2018/2019, while Figure 2.1 depicts the trend over the five academic sessions.

Table 2. 1: Number of Public and Private Primary Schools: 2014/2015-2018/2019

Year	Public	Private	Total
2014/2015	64,312	35,660	99,972
2015/2016	62,184	34,717	96,901
2016/2017	68,471	43,507	111,978
2017/2018	63,414	50,036	113,450
2018/2019	61,921	55,004	116,925

2.4 Teachers

2.4.1 National Summary of Teachers

Table 2.14 and Figure 2.5 present the national summary of statistics on qualified teachers as a function of total number of public and private primary schools for five academic years, 2014/2015 – 2018/2019. Qualified teachers are teachers who possess the minimum teaching qualification of the Nigeria Certificate in Education (NCE) or have post-graduate diploma or certificate in addition to their university degrees or equivalent qualifications.

Table 2. 14: National Summary of Primary School Teachers and Qualified Teachers by Gender: 2014/2015-2018/2019

YEAR	All Teachers			Qualified Teachers		
	Male	Female	Total	Male	Female	Total
2014/2015	270,882	252,547	523,429	187,124	223,107	410,231
2015/2016	238,431	214,817	453,248	165,093	189,163	354,256
2016/2017	247,472	232,640	472,077	162,380	183,421	345,801
2017/2018	422,223	491,356	913,579	269,151	298,882	568,033
2018/2019	474,425	526,911	1,001,336	361,076	444,958	806,034

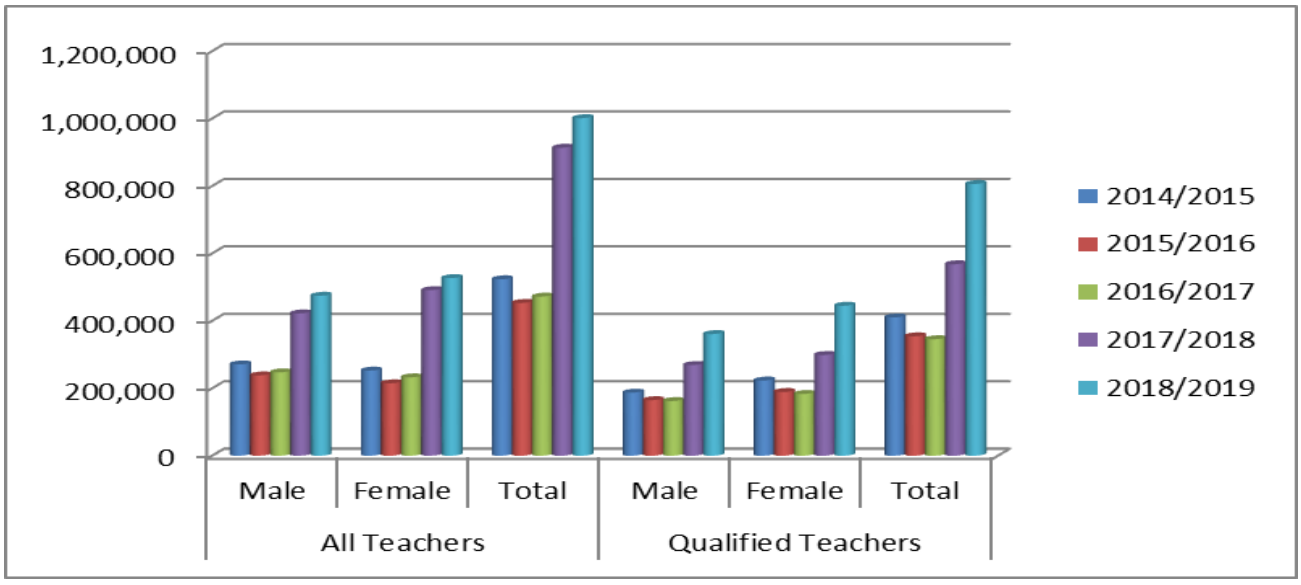

Figure 2. 4: National Summary of Primary School Teachers and Qualified Teachers by Gender: 2014/2015-2018/2019

2.4.2 State Level Teacher Qualifications

Tables 2.15 – 2.18 present the statistics on number and proportion of qualified teachers in each state of the federation by gender.

Table 2. 15: Teachers in Public and Private Primary Schools by State and Gender 2018/2019

CHAPTER THREE

JUNIOR SECONDARY SCHOOL

3.0 Introduction:

The last three years of the nine-year basic education program is the junior secondary school component, comprising JSS1, JSS2 and JSS 3. Official age of enrolment into JSS1 is 12 with a completion age of 14. Students who complete junior secondary Education either proceed to senior secondary or enroll in vocational training programs. This chapter presents 2018/2019 data as collected by the thirty-six States and FCT and collated by FME.

3.1 Number of Junior Secondary Schools

Table 3. 1: Number of Public and Private JSS: 2014/2015 – 2018/2019

Year	Public	Private	Total
2014/2015	11,403	13,026	24,429

3.3.2 Teachers by Qualification

The minimum teaching qualification for teachers in junior secondary school is the National Certificate in Education (NCE). Therefore, teachers who possess a first or higher degree certificate without any teaching qualification such as a diploma or certificate in education are designated as unqualified.

3.3.3 Qualified teachers

CHAPTER FOUR

SENIOR SECONDARY SCHOOL DATA

4.0 Introduction

Senior Secondary Schools consist of the second component of the 3-3 education system. It is of three-year duration and prepares students who complete senior secondary education for tertiary education. It officially carters for children in the 15 – 17 years of age and offers a broad curriculum. Data presented in this chapter is restricted to data generated for conventional secondary school as distinct from technical and vocational schools of the same level.

4.1 Number of Senior Secondary Schools

CHAPTER FIVE

TERTIARY EDUCATION

5.0 Introduction

Tertiary Education which is also referred to as Post-Secondary Education is the educational level following the completion of the Senior Secondary Education. This includes Universities, Polytechnics and Colleges of Education in public and private sectors.

5.1 Colleges of Education

The National Commission for Colleges of Education (NCCE) is concerned with the regulations on the operation of educational institutions at State and Federal Levels including private institutions for the production of qualified teachers with the National Certificate of Education (NCE). The out-turn of teachers is especially for the basic level of education (Pre-primary, Primary and Junior Secondary Schools) and in some cases, the Secondary Schools.

Table 5. 1: Enrolment in Colleges of Education by Level and Gender: 20117/2018

LEVEL/GENDER	Male	Female	Total
PRE - NCE	3498	1980	5478

The major challenges facing Nigerian universities is the instability of the academic calendar occasioned mostly by industrial actions. Other local problems also lead to closure of the universities for a period. All these contribute to unstable academic calendar and in turn delay in the graduation of students. Graduation rates are also affected by students' performance and dropout rates. Table 5.43 shows the percentage of students who graduated as at when due in 2018.

Table 5. 43: Federal University % students who graduated when due, 2018

Federal University	% students who graduated when due

CHAPTER SIX

ADULT & NON- FORMAL EDUCATION

6.0 Introduction

Adult and Non-Formal Education is defined in the National Policy of Education (NPE, 2014) as the *equivalent of basic education given to adults, children and youths of formal school age who are outside the formal school system*.

The goal of this type of education is to provide, among others, functional basic education for adults and youths who have never had the advantage of formal education or who left school early; and to provide remedial and lifelong education for youths and adults who did not complete secondary education. This chapter presents data on adult and Non-formal Education in Nigeria

CHAPTER SEVEN

EXAMINATION STATISTICS

7.0 Introduction

In Nigeria, examination bodies are established with the mandate to administer and conduct qualifying examinations for entry into the various levels of education and for certification at the end of the programme. These examination bodies include the West African Examinations Council (WAEC), National Examinations Council (NECO), National Business and Technical Examination Board (NABTEB) and Joint Admissions and Matriculation Board (JAMB). This chapter presents the enrolment and performance of candidates in national examinations.

7.1 West African Examinations Council (WAEC)

The West African Examinations Council (WAEC) conducts different categories of examinations; prominent among which is the West African Senior School Certificate Examination (WASSCE). The tables that follow present data on candidate's perfomances in WAEC administered Senior Secondary School Certificate Examination 2018/2019 session.

Table 7. 1: Number of Candidates that sat for WASSCE May/June Examination by Year, Sector and Gender: 2014/2015 – 2018/2019

Year	Public Schools				Private Schools			
	Male	Female	Total	% Female	Male	Female	Total	% Female
2014/2015	516,423	388,144	904,567	42.91	340,436	330,957	671,393	49.29

7.4 Joint Admissions and Matriculation Board (JAMB)

The Joint Admissions and Matriculation Board (JAMB) is statutorily responsible for the conduct of entrance examinations for tertiary institutions (Universitites, Polytechnics, Colleges of Education, and Monotechnics) public and private in Nigeria. JAMB, over the years has been conducting separate examinations for different categories of tertiary institutions as well adimit candidates into various programmes. Tables 7.19 – 7.24 present statistics of UTME for 2019/2020; it covers both applications and admissions (by institutions, faculty, and states) for public and private tertiary institutions.

Table 7. 19: **UTME Application and Admission by Year and Gender: 2014/2015 – 2018/2019**

7.5.0 TEACHERS REGISTRATION COUNCIL OF NIGERIA (TRCN)

The Teachers Registration Council of Nigeria (TRCN) was established with the mandate to promote excellence in education through effective registration and licensing of teachers. TRCN promotes professionalism through accreditation, monitoring and supervision of teacher training programmes, mandatory continuing professional development and maintenance of discipline among teachers at all levels of the education system.

CHAPTER EIGHT

FUNDING OF EDUCATION

8.0 Introduction

Education in the Nigerian constitution is on the concurrent list. Therefore, funding of the education sector is the responsibility of the Federal, State and Local Governments. Stakeholders such as private sector, philanthropists, International donor and faith-based organisations also provide funding support to education. The Federal Government's contributions are from budgetary appropriation and spending from education parasatals such as Universal Basic Education Commission (UBEC) and Tertiary Education Trust Fund (TETFund). The Table below shows the summary of the federal government allocations to education, 2015 to 2019.

Table 8. 1: Allocation to Education Sector: 2015-2019

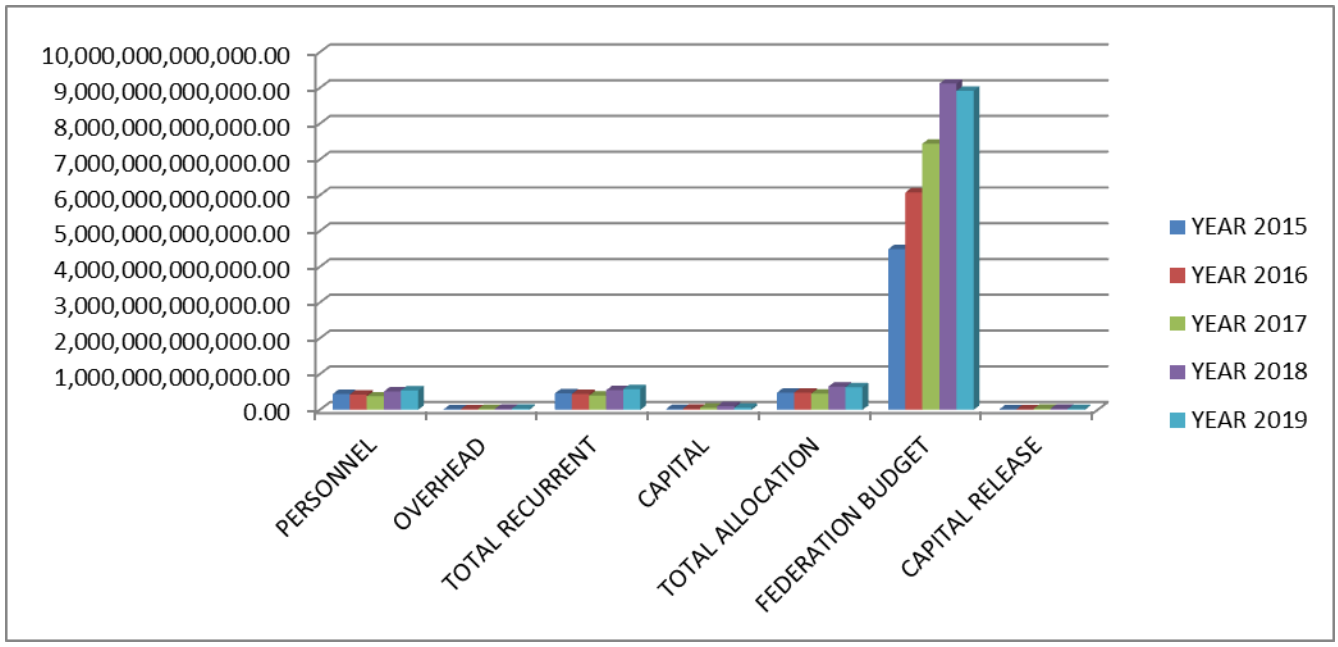

Figure 8. 1: Allocation to Education Sector: 2015-2019

8.1 Universal Basic Education Commission Fund

The Federal Government's contribution to basic education is taken from 2 per cent FGN Consolidated Revenue Fund. The fund which is managed by the Universal Basic Education Commission (UBEC) is allocated to States annually. The fund is accessed by States on payment of counterpart fund. This condition/requirement must be fulfilled by the states before the funds could be assessed. States are expected to finance the basic education programme using the fund. In the year 2017, two States apparently did not meet the requirements to collect their allocation and three States in 2018, while twenty-five States failed to collect in 2019 respectively. The Tables below provide details on funding profiles of basic education in Nigeria (2017-2019).

8.2 Tertiary Education Trust Fund

The Tertiary Education Trust Fund was established by TETFund Bill of 2011. The fund is to rehabilitate, restore and consolidate Tertiary Education and Tertiary Infrastructure through funding and effective project management. The Act imposes 2 per cent Education Tax on the profit of all registered companies in Nigeria. This fund is collected by the Federal Inland Revenue Service (FIRS). The tax so collected is administered by the TETFund, and deployed to the Education sector, and is allocated to all segments of the Tertiary Education as provided in the enabling Act. The tables that follow provide detailed allocation of funds to tertiary institutions by TETFund (2017-2019)

Table 8. 6: Grand Total for University Projects on Geo-Political Zones: 2018

8.3 Scholarship Awards

The Federal Government rewards students who perform excellently in West African Senior Secondary Certificate Examinations (WASSCE), First and Master's degree with Scholarship Awards to assist them in the pursuit of their Undergraduate and postgraduate studies in Nigerian Universities and abroad as well as in Nigerian Polytechnics and Colleges of education.

The foreign scholarship involves the Commonwealth awards and awards from countries having Bi-lateral Education Agreement with Nigeria. The Tables below show the award for under and post graduate studies in Nigeria and Commonwealth programs abroad (2017-2019).

Table 8. 11: Nigerian Undergraduate and Post Graduate Scholarship Awards by Tertiary Institutions and Year

DATA DICTIONARY USED IN COMPLETION OF EDUCATION INDICATORS

The data dictionary presented below is a summarized version of the complete Nigerian data dictionary. Most definitions are identical to those used internationally by institutes such as UNESCO UIS.

Age specific enrolment rate (ASER)

Definition: Percentage of the population of a specific age enrolled, irrespective of the level of education.

Purpose: To show the extent of the participation of a specific age cohort in educational activities.

Calculation method: Divide the number of pupils (or students) of a specific age enrolled in educational institutions at all levels of education by the population of the same age and multiply the result by 100.

Class and Age Specific Enrolment Rate (CASER)

Definition: Class and Age Specific Enrolment Rate (CASER) is a method of calculating NER which has been performed in previous years in Nigeria. The CASER takes the number of children enrolled at a specific grade level of education for the age that is required at that level and divides the number by the total population of that age. Therefore when applied to a single level of education, this method is identical to the calculation used for NER. When dealing with an age range, CASER uses as the numerator only those children who are enrolled at the correct level of school and the correct age. Therefore CASER will derive a smaller percentage than NER which, when applied to a grade level range, uses as the numerator all children in the age group at the level of school regardless of which grade level they are enrolled in.

Completion Rate

Primary Phase and Junior Secondary

Definition: The completion rate is the ratio of the total number of pupils enrolled in the final year of education to the total number of school age pupils in the population for that age level. This is the same as Gross Enrolment Rate as taken for the final year.

Survival Rate

Definition: Percentage of a cohort of pupils enrolled in the first grade of a given level or cycle of education in a given school-year who are expected to reach the last grade of the given level or cycle of education.

Typical Calculation Method: Divide the total number of pupils belonging to a school-cohort who reached the last grade of the specified level of education by the number of pupils in the school-cohort i.e. those originally enrolled in the first grade of primary education, junior secondary or senior secondary, and multiply the result by 100.

Nigerian Calculation Method: Divide the number of pupils who enrolled in the last grade of the given level or cycle of education in the current year by the number of pupils who enrolled in the first grade of the given level or cycle of education from the previous year when the pupils who are enrolled in the last grade of the given level or cycle of education were in the first grade of the given level or cycle of education. Nigeria uses this calculation method because figures pre-2004 are not readily available for dropouts, transfers etc.

Gender Gap (Gross)

Definition: The Male Gross Enrolment Rate (GER) less Female Gross Enrolment Rate (GER).

Gender Gap (Net)

Definition: The Male Net Enrolment Rate (NER) less Female Net Enrolment Rate (NER).

Gender Gap Teachers

Definition: The Percentage of Male Teachers (as a percentage of the total number of teachers) less the percentage of Female Teachers (as a percentage of the total number of teachers).

Gender Parity Index (GPI)

Definition: Ratio of female to male values of a given indicator. A GPI of 1 indicates parity between sexes. In the case of students we calculate GPI in terms of GER. Therefore GPI = GER Female / GER Male.

Gender Ratio Net

Definition: Ratio of female to male values of Net Enrolment Rate (NER). A GPI of 1 indicates parity between sexes.

Gross Enrolment ratio (GER)

Definition: Enrolment at a given level of education, regardless of age, expressed as a percentage of the population in the theoretical school-age group corresponding to this level of education. For the tertiary level, the population used is the five-year age group following on from the secondary school theoretical leaving age.

Purpose: Gross Enrolment Ratio is widely used to show the general level of participation in a given level of education. It indicates the capacity of the education system to enrol students of a particular age-group. It is used as a substitute indicator to net enrolment rate (NER) when data on enrolment by single years of age are not available. Furthermore, it can also be a complementary indicator to NER by indicating the extent of over-aged and under-aged enrolment.

Calculation method: Divide the number of pupils (or students) enrolled in a given level of education regardless of age by the population of the age-group which officially corresponds to the given level of education, and multiply the result by 100.

Gross intake ratio (GIR)

Definition: Total number of new entrants in the first grade of primary education, regardless of age, expressed as a percentage of the population at the official entrance age to primary education.

Purpose: Gross Intake Rate indicates the general level of access to primary education. It also indicates the capacity of the education system to provide access to grade 1 for the official school-entrance age population. This indicator is used as a substitute to Net Intake Rate (NIR) in the absence of data on new entrants by single years of age.

Calculation method: Divide the number of new entrants in grade 1, irrespective of age, by the population of official school-entrance age, and multiply the result by 100.

Net enrolment rate (NER)

Definition: Enrolment of the theoretical school-age group for a given level of education, expressed as a percentage of the total population in that age-group.

Purpose: To show the extent of participation in a given level of education of children and youths belonging to the official age-group corresponding to the given level of education.

Calculation method: Divide the number of pupils enrolled who are of the official age-group for a given level of education by the population for the same age-group and multiply the result by 100.

Percentage of repeaters

Definition: Total number of pupils who are enrolled in the same grade (or level) as the previous year, expressed as a percentage of the total enrolment in that grade (or level) of education.

Purpose: This indicator measures the extent and patterns of repetition by grade, as part of the internal efficiency of education system.

Calculation method: Divide the number of pupils/students repeating a given grade in a given school-year by the number of pupils or students enrolled in the same grade in the same school-year and multiply by 100.

Percentage Withdrawals

Definition: Total number of pupils who withdrew from a grade (or level) expressed as a percentage of the total enrolment in that grade (or level) of education.

Calculation method: Divide the number of pupils/students withdrawing from a given grade in a given school-year by the number of pupils or students enrolled in the same grade in the same school-year and multiply by 100.

Percentage of Qualified Teachers

Definition: The number of qualified teachers at a given level of education expressed as a percentage of total number of teachers (male and female) at the same level in a given school-year. Teachers are defined as persons whose professional activity involves the transmitting of knowledge, attitudes and skills that are stipulated in a formal curriculum programme to students enrolled in a formal educational institution. Qualified means having at least a NCE qualification

Calculation Method: Divide the total number of qualified teachers at a given level of education by the total number of teachers (male and female) at the same level in a given school-year and multiply by 100.

Pupils Classroom Ratio

Definition: Average number of pupils per classroom in a given school-year. Classroom is defined as physical space at a school where formal instruction occurs. The classroom should be in good condition and not needing major repairs.

Calculation Method: Divide the total number of pupils each level or type of education by the number of classrooms for each level or type of education.

Pupil Qualified Teacher Ratio (PTQR)

Definition: Average number of pupils per qualified teacher at a specific level of education in a given school-year. Qualified teachers are defined as persons whose professional activity involves the transmitting of knowledge, attitudes and skills that are stipulated in a formal curriculum programme to students enrolled in a formal educational institution and who have achieved a minimum level of education which should include either NCE or a degree of equivalent qualification in education.

Pupil Textbooks Ratio (Pupil to Core Textbook Ratio)

Definition: Average number of pupils per core textbooks in a given school-year. A core textbook is a book used by schools for formal instruction to pupils of the four core subjects.

Calculation Method: Divide the total number of pupils in the school by the number of textbooks in the same school of the four core subjects.

Pupil Teacher Ratio (PTR)

Definition: Average number of pupils per teacher at a specific level of education in a given school-year. Teachers are defined as persons whose professional activity involves the transmitting of knowledge, attitudes and skills that are stipulated in a formal curriculum programme to students enrolled in a formal educational institution.

Calculation Method: Divide the total number of pupils enrolled at the specified level of education by the number of teachers at the same level.

Percentage of Private Enrolment

Definition: Enrolment in private educational institutions at a given level of education expressed as a percentage of total enrolment at the same level.

Purpose: To measure the relative weight of private education in terms of enrolment, hence the scale and capacity of private education within a country.

Calculation method: Divide the number of pupils (or students) enrolled in private educational institutions in a given level of education by total enrolment (public and private) at the same level of education, and multiply the result by 100

Repetition Rate

Definition: Proportion of pupils enrolled in a given grade at a given school-year who study in the same grade in the following school-year in the specific level or type of education. A repeating pupil is a pupil who studies

the same grade as he or she did in the previous school year.

Calculation Method: Divide the number of repeaters in a given grade in school-year by the number of pupils from the same grade in the previous school-year in the specific level or type of education.

Teacher to Classroom Ratio

Definition: Average number of teachers per classroom in a given school-year. Classroom is defined as physical space at a school where formal instruction occurs. The classroom should be in good condition and not needing major repairs.

Calculation Method: Divide the total number of teachers each level or type of education by the number of classrooms for each level or type of education.

Teacher to Non-Teacher Ratio

Definition: The proportion of teachers at a given level of education expressed as a ratio of total number of non-teaching staff at the same level in a given school-year. Teachers are defined as persons whose professional activity involves the transmitting of knowledge, attitudes and skills that are stipulated in a formal curriculum programme to students enrolled in a formal educational institution.

Calculation Method: Divide the total number of teachers at a given level of education by the total number of non-teaching staff (male and female) at the same level in a given school-year.

Transition Rate

Definition: The number of students studying in a given year and grade level as a percentage of the number of students studying in the previous year and previous grade level.

Calculation method: Divide the number of pupils enrolled in a given year and for a given grade level by the number of students enrolled in the previous year and previous grade level and multiply the result by 100.

Unenrolled children

Definition: Children in the official school age range who are not enrolled in school. This is the remainder after accounting for ASER.
